Journal of Volcanology and Geothermal Research, Volume 82 Nos. 1–4

Special Issue

VESUVIUS

Selected papers from the Mount Vesuvius symposium, held during the Annual Fall Meeting, American Geophysical Union VGP-Special Session in 1995

CONTENTS

Introduction vii

A kinematic model for the Plio-Quaternary evolution of the Tyrrhenian–Apenninic system: implications for rifting processes and volcanism
E. Turco and A. Zuppetta 1

The interplinian activity at Somma–Vesuvius in the last 3500 years
G. Rolandi, P. Petrosino and J. Mc Geehin 19

Geochemical and isotopic (Nd–Pb–Sr–O) variations bearing on the genesis of volcanic rocks from Vesuvius, Italy
R.A. Ayuso, B. De Vivo, G. Rolandi, R.R. Seal II and A. Paone 53

Pre-eruptive volatile content, melt-inclusion chemistry, and microthermometry of interplinian Vesuvius lavas (pre-A.D. 1631)
H.E. Belkin, B. De Vivo, K. Török and J.D. Webster 79

U-series disequilibria in young (A.D. 1944) Vesuvius rocks: Preliminary implications for magma residence times and volatile addition
S. Black, R. Macdonald, B. DeVivo, C.R.J. Kilburn and G. Rolandi 97

Computer simulations of pyroclastic flows on Somma–Vesuvius volcano
S. Rossano, G. Mastrolorenzo and G. De Natale 113
Sea gravity data in the Gulf of Naples: a contribution to delineating the structural pattern of the Vesuvian area
G. Berrino, G. Corrado and U. Riccardi 139
Geodetic monitoring of Mt. Vesuvius Volcano, Italy, based on EDM and GPS surveys
F. Pingue, C. Troise, G. De Luca, V. Grassi and R. Scarpa 151
An image of Mt. Vesuvius obtained by 2D seismic tomography
A. Zollo, P. Gasparini, J. Virieux, G. Biella, E. Boschi, P. Capuano, R. de Franco, P. Dell'Aversana, R. de Matteis, G. De Natale, G. Iannaccone, I. Guerra, H. Le Meur and L. Mirabile 161
Seismicity at Somma-Vesuvius and its implications for the 3D tomography of the volcano
G. De Natale, P. Capuano, C. Troise and A. Zollo 175
The Somma–Vesuvius stress field induced by regional tectonics: evidences from seismological and mesostructural data
F. Bianco, M. Castellano, G. Milano, G. Ventura and G. Vilardo 199
Electric and electromagnetic outline of the Mount Somma–Vesuvius structural setting
R. Di Maio, P. Mauriello, D. Patella, Z. Petrillo, S. Piscitelli and A. Siniscalchi 219
2.5D modelling of Somma–Vesuvius structure by aeromagnetic data
M. Fedi, G. Florio and A. Rapolla 239
